

# Progressing as A Community of Success

More than 400,000 parents, children, students, youth and jobseekers benefitted from MENDAKI programmes including M<sup>3</sup> focus areas in the last five years.

KelasMateMatika, Youth Mentoring Office, Programme Evaluation Office, Women At Work and Tunas Bersama M<sup>3</sup> raised competencies of over 38,000 in the community since 2019.

## Focus Area 1 KelasMateMatika (KMM)

Through M<sup>3</sup>, KMM has been scaled up to be more accessible to families.

More than  
**10,000**

parents and children benefitted from KMM.

**8 in 10**

KMM children are Primary 1 ready.

Study conducted by the Singapore University of Social Sciences showed a strong correlation that a **student who did not require learning support** in Primary 1 is **more likely to perform better** in PSLE Maths.

Strong parental expectations and involvement were key factors in reducing the need for additional learning support in school.

## Focus Area 3 Youth Mentoring Office (YMO)

Mentoring efforts strengthened by newly formed MENDAKI Professional Networks.

**1,000+**

professionals actively volunteer through various MENDAKI and M<sup>3</sup> initiatives.

In 2024,

**13** MENDAKI Professional Networks

launched to boost connections and enable the more successful in the community to help our youth.

Professionals provide mentoring, guidance and inspiration for our youths to leverage opportunities in growth sectors.

**1,600+**

trained mentors (including professionals)

Supported

**5,700+**

mentees across FA3 mentoring programmes.

## Focus Area 4 Employment & Employability

Since 2022, MOU between NTUC and MENDAKI enhances support, strengthen workforce competencies and secure job placements for more Malay/Muslim workers.

About

**15,000**

jobseekers benefitted from MENDAKI and NTUC's partnership.

MENDAKI Care Advisors referred jobseekers to NTUC for training and job placement programmes.

Together with FA4 partners, MENDAKI has supported youth in navigating career pathways and leveraging opportunities in the future economy.

Between 2019 and 2023, more than

**5,000**

youth attended "Future of..." Series learning journeys organised by the MENDAKI's Future Ready department.
