## How to Ace your Interviews

### ***Conduct Research on the Hiring Company and People:***

Success in a job interview starts with a solid foundation of knowledge on the jobseeker's part. You should understand the employer, the requirements of the job, and the background of the person (or people) interviewing you.

### ***Dress for Success:***

Plan out a wardrobe that fits the organisation and its culture, striving for the most professional appearance you can accomplish. Remember that it is always better to be overdressed than under -- and to wear clothing that fits and is clean and pressed. Keep accessories and jewellery to a minimum.

### ***Arrive on Time for the Interview -- and Prepared for Success:***

There is no excuse for ever arriving late for an interview -- other than some sort of disaster. Strive to arrive about 15 minutes before your scheduled interview to complete additional paperwork and allow yourself time to get settled.

### ***Make Good First Impressions -- to Everyone You Encounter:***

Be polite and offer warm greetings to everyone you meet -- from the parking attendant or the receptionist to the hiring manager. Employers often are curious how job applicants treat staff members -- and your job offer could easily be withdrawn if you are rude or arrogant to any of the staff. When it is time for the interview, keep in mind that first impressions -- the ones interviewers make in the first few seconds of greeting you -- can make or break an interview.

### ***Be Authentic, Upbeat, Focused, Confident, Candid, and Concise:***

Once the interview starts, the key to success is the quality and delivery of your responses. Your goal should always be authenticity, responding truthfully to interview questions. At the same time, your goal is to get to the next step, so you will want to provide focused responses that showcase your skills, experience, and fit -- with the job and the employer. Provide solid examples of solutions and accomplishments -- but keep your responses short and to the point.

**For each question from 21 to 28, write your answer (1, 2, 3 or 4) in the brackets provided.**
